# KIA TASMAN DOUBLE CAB DECK STANDARD FEATURES

The Loadmaster KIA Tasman Ute Deck is designed specifically for the new generation Tasman platform. Built using heavy-duty alloy construction and precision manufacturing, it provides a durable and practical solution for trades, fleets and commercial operators who demand reliability from their work vehicle.

Loadmaster offers the largest standard deck available for the KIA Tasman, minimising usable tray space while maintaining vehicle balance and structural integrity.

## STANDARD ON DOUBLE CAB

### HEAVY-DUTY COAMING RAILS

Strong outer deck rail providing structural rigidity  
40 × 75 MM RHS

1

5

### HEAVY-DUTY HEADBOARD + RETENTION RINGS
