ABOUT US

Welcome to Loadmaster, a leading manufacturer and installer of high-quality vehicle equipment in New Zealand. Since our establishment in 1956 as an engineering firm, we have been committed to providing our customers with top-of-the-line products that meet their needs and exceed their expectations

OUR RANGE INCLUDES:

- Ute and truck decks + hybrid decks
- Service bodies + utility vehicles
- Protection Equipment including bullbars, nudge bars, winch bars + cargo barriers
- Load-Lids + canopies
- Racks + carriers
- Towbars + accessories

With 65 + years of experience, we have earned a well-deserved reputation for excellence. Owned and managed locally, we take pride in our history and look forward to building on our legacy for years to come.

Our products are used by a wide range of customers, including:

- Fleet operators
- Commercial + Industrial
- Farming + Agricultural Sector
- Government organisations
- Private vehicle owners

We are proud to say that we freight our decks and towbars throughout New Zealand, ensuring that our products are accessible to customers across the country.

We are committed to providing our customers with the highest level of service and support. If you need a custom-built solution or advice on choosing the right product for your needs, our team of experts is here to help.

WORKING WITH US

QUALITY + SAFETY

We use only the highest-quality materials and manufacturing processes to ensure that our products are durable, safe and built to last. A trusted brand you can count on.

PRICE

We offer competitive pricing without compromising on quality. From custom solutions to off-the-shelf products, we are committed to providing great pricing options for every budget.

NEW ZEALAND MADE PRODUCTS

Our Loadmaster brand is hand made from NZ steel. Ensuring your vehicle accessories are strong, safe and extremely durable.

SERVICE

Committed to providing exceptional customer service, from concept, design, manufacturing, final assembly, and delivery, ensuring we meet and exceeded expectations.

EXPERIENCE

With 65+ years of industry experience and a respected brand, our qualified engineers provide exceptional service and expertise.

MTA ASSURANCE

All MTA members are bound to strict criteria which means that when you use an MTA member, you can expect to receive the highest quality service.

ENVIRONMENTAL COMMITMENT

TE ARA KĀKĀRIKI GREENWAY GREENDOT INITIATIVE

Green dots are managed native plantings supported by Te Ara Kākāriki in collaboration with landowners and other organisations on both public and private land. The initiative offers restoration planning, plant supply, expert advice, volunteer planters, and monitoring services to landowners in the Selwyn District.

The focus is on selecting the appropriate tree species for each unique site and educating the community while enhancing biodiversity and developing steppingstones in the Te Ara Kākāriki Greenway.

The Trust's main objective is to increase the less than 1% of indigenous vegetation that remains on the Canterbury Plains, making it a key driver of the project.

The greendots program contributes to environmental conservation by encouraging sustainable land management practices and promoting a sense of community involvement.

Loadmaster are continuous supporters of this initiative sponsoring a Greendot in Canterbury.

UTE DECKS

PRODUCTS + ACCESSORIES

UTE DECKS

OUR DECKS ARE SECOND TO NONE + THE TOUGHEST ON THE MARKET

Farmers, tradesmen and contractors are a testament to the quality and robustness of our Decks. With a design that uses only RHS (box section) for all the runners and cross members as well as the frame of the drop sides.

Decks are manufactured to a size to suit each Ute (double cab, extra cab or single cab), and galvanised. Assembled and fitted with your specific requirements, our decks are customisable to your work and vehicle requirements with a huge range of options. Our decks are fitted onsite to your vehicle or packed and freighted to customers through out New Zealand

STANDARD FEATURES

- Continuous Construction 100% RHS Box Steel
- Galvanised for protection
- Rear protection bars
- Ebony-stained pine flooring + sides
- Mudguards + Mud Flaps
- Two dog hooks
- Lights inside steel frame
- Rope rails
- High rise fuel filler
- Dual steps
- Headboard risers

FULLY CUSTOMISABLE

Discover the ultimate in utility with our fully customisable decks. Tailor your vehicle with a range of flooring, size and by durable powder coating options. Enhance functionality with underdeck tool boxes, smartwash systems, ladder racks, and bespoke tipper units and more.

Ensuring your ute deck meets every need, crafted for versatility and built to last, our solutions take your vehicle from ordinary to extraordinary.

SKILLS, QUALITY + EXPERIENCE

Our ute decks are designed and installed by skilled engineers and electricians to ensure high-quality, on-time completion. A comprehensive design process with you ensures you have all the features and meets your requirements.

With 65 + years of experience, we have earned a well-deserved reputation for excellence.

Our products are used by a wide range of customers, including commercial businesses, government organisations, and private vehicle owners. We freight our decks throughout New Zealand, ensuring that our products are accessible to customers across the country.

We are committed to providing our customers with the highest level of service and support and our team of experts is here to help.

CERTIFICATION

For heavy vehicle service bodies, we provide comprehensive certification services. We manufacture and install towbars, load anchor points and rope rails to heavy vehicles. Our commitment to quality in the manufacturing and installation of our products, meets the highest certification standards.

To ensure compliance, we offer vehicle inspections and certifications at our site, guaranteeing that your vehicle meets the necessary requirements for safe and reliable operation and the convenience of one location.

UTILITY VEHICLES

PRODUCTS + ACCESSORIES

UTILITY VEHICLES

LIGHTWEIGHT + DURABLE + STRONG

The ultimate on-site service vehicle. By combining our service body boxes with the original Loadmaster deck, you gain the advantages of both a ute deck's strength, durability, and practical work space, as well as the storage and security provided by a service body.

UTILITY SERIES

Loadmaster Utility Decks are the versatile solution for your contracting needs. Our range includes standard and custom designs such as the:

- Standard Contractor
- Field Service
- Linesman
- Loose Litter Tipper
- Gardener Tipper

All equipped to cater to your specific requirements. A sub-chassis frame made from RHS box construction, our utility decks offer quality, safety, and durability.

OPTIONS + FEATURES

Our utility decks come with all the standard features and construction of our ute decks. On-deck and under-deck boxes are designed and manufactured to size specification, ensuring a custom fit to your vehicle and equipment needs. Our boxes are made locally from high-quality alloy, powder-coated to your preferences, and designed to be lightweight yet durable enough to withstand rugged conditions.

SAFETY + 24 HOUR OPERATIONS

Additional features such as internal and external lighting and emergency beacons can be selected for further safety and 24 hour operations.

TIPPERS + LIFTERS

Our tippers are also custom-designed to your specifications, with safety tipping systems that ensure safe disposal of loads and easy operation from the driver's seat, providing convenience and efficiency with every use. We can integrate our tailgate lifters into the construction of the deck.

SKILLS, QUALITY + EXPERIENCE

Our service utilities are designed and installed by skilled engineers and electricians to ensure high-quality, on-time completion. A comprehensive design process with you; ensures your custom utility has all the features and meets your requirements.

A one-stop-shop for utilities and accessories such as towbars, roof racks and protection equipment, making it easy for you to get everything you need in one place.

LOAD-LIDS™ + CANOPIES

PRODUCTS + ACCESSORIES

LOAD-LIDS™ + CANOPIES

For over 10 years, Loadmaster has been supplying and installing Utemaster Load-Lid™ + Centurion Canopies..

LOAD-LIDS™

Utemaster Load-Lid™ are a tough hard lid made entirely from lightweight aluminum. So, not only is it strong and sturdy, but it's also pretty easy to handle. Plus, it can take on up to 200kg of weight on its surface! That means you can carry more stuff, even the things that wouldn't fit underneath the lid.

CENTURION CANOPIES

The Utemaster Centurion Canopies are built strong with full width doors without compromising on the structure of the canopy.

Both the Load-Lid™ and Canopies come with a fantastic range of accessories fit for your vehicle make and model.

EXPERIENCE

With 50+ years of industry experience and a respected brand, our qualified engineers provide exceptional service and expertise

MODELS

We can supply and fit Ford, Nissan, Isuzu, Mazda, Holden, LDV, RAM, GWM, Mercedes, SsangYong + Chevrolet
(Excludes Toyota 2016+ or Volkswagen models)

STANDARD FEATURES

Versatile, customisable, super strong and lightweight. Each Load-Lid™ is fit for your vehicle. Standard features are included to meet your work or recreational needs.

200KG LOAD RATING

Lock away tools + gear in the wellside + secure big items on the lid

RIVER CHANNEL

Channels re-direct the water hitting the lid keeping your gear nice and dry

RAISED PROFILE

No intrusions below the top edge of your wellside improves rigidity + reduces water pooling

ALUMINIUM CONSTRUCTION

3MM alloy rust-free treadplate protects your lid from damage

WATER PROTECTION

Water is diverted off your tray to the ground protecting your cargo

FINISHES

Available in Oasis or Mill Finish

SECURITY

Unique keys are supplied with your lid so you can securely lock away items in your wellside

ONE-HAND OPENING

Single Twist Lock allows you to open your hard lid with one hand

LID STRAP

Making it easier to reach and pull down the lid especially when parked on an angle

LOAD-LID™ ACCESSORIES

Utemaster accessories take your Load-Lid™ to the next level when working or for recreation + adventure needs.

- Side Rails
- Destroyer Rails
- Sports bar destroyer side rails
- Gas stay upgrade
- Cross bars

- Bike carriers
- T-Track bars
- Central locking
- Lid Spacer
- Lashing Rings + load stop

- Tool mount kit
- Rear ladder rack
- Tent mounting
- Heavy duty mat

CENTURION CANOPIES

We can supply and fit Ford, Nissan, Isuzu, Mazda, Holden, LDV, RAM, GWM, Mercedes + SsangYong (excludes Toyota 2016+ or Volkswagen models)

HEAVY DUTY

Aluminium construction allows you to carry much heavier loads than you ever could other canopies.

HUGE ACCESS

Full-width doors that give you access to your gear the whole way down each side.

TIE DOWN POINTS

Hex-shaped tie-down points straps sit firmly in place by crisscrossing between the hex cutouts on each side.

QUALITY HINGES

Concealed extrusion hinge, matches the Canopy colour and eliminates fasteners piercing the body.

POWDER COATING

Black or white state of the art powder coating booth and provides a durable finish.

REMOVE FIXTURES

Canopy is fixed to the wellside using existing factory holes, no damage to the wellside when removed.

WATERPROOF

Built-in rain channels send any water landing on the canopy away for the inside of your wellside.

CUSTOMISABLE

Retro-fit any accessory without having to worry about the structural integrity or weatherproofing.

LOCKING UPGRADE

Quieter opening/closing action along with additional security + easier to adjust.

CANOPY ACCESSORIES

Utemaster accessories take your Load-Lid™ to the next level when working or for recreation + adventure needs.

- Cantilever roof rack
- Central locking
- Removable shelving
- Tent mounting
- Dog vent
- Recovery kit
- Cantilever rear roller
- Well-side mat
- Ratchet straps
- Awning mount
